Mr. John Anderson, who was sent to the Asylum at Lexington last week, died at that institution yesterday afternoon. Mr. Coburn was one of our oldest and best-known citizens, one who was exceedingly intelligent and well read, and he will be missed by all of the citizens of this city and county. His remains will be brought here Monday.

THE GERMANTOWN FAIR.

Yesterday was Republican Day and Judge Holt spoke.

It was an ideal day, and those who attended the Germantown Fair enjoyed it to the fullest extent.

The managers of the Fair had announced that the day be set apart as "Republican Day," and ex-Chief Justice W. H. Holt of Frankfort was the speaker of the occasion.

Judge Holt was introduced by Mr. Thomas A. Davis, and, although the speaker had been limited by the program to one hour, in that time he presented an array of facts that must have been convincing to every unbiased mind.

He reviewed the Chicago platform and showed that in its every declaration it presented principles wholly at variance with all former teachings of the Democratic fathers.

Throughout the Judge had the most respectful attention, and his remarks were frequently received with hearty applause.

The courtesies of the Fair Company were extended without stint to Judge Holt and those who accompanied him, and to President T. J. Taylor and his estimable wife are especially thanks due to the most bounteous dinner.

FULL TO THE ROOF!

Magnificent Oration Last Night to Hon. John W. Yerkes.

Washington Opera-house was filled when Hon. Stephen A. Douglas spoke in 'two weeks ago.

It was utterly unable to hold the crowd that last night wanted to hear the Hon. John W. Yerkes.

The reception to this gifted young Kentuckian was in the nature of an ovation, and he declared, the most inspiring political demonstration that he had yet witnessed in Kentucky.

Proceeding the meeting the several McKinley Clubs paraded the streets, presenting a splendid appearance—to every one save the Bullfrogs.

Mr. Yerkes was introduced by his old classmate, Mr. A. M. J. Cochran. He spoke for an hour and a half, commanding the best attention, and presenting the greatest lessons in concise terms. His speech was one of fact and not of abuse, each point backed by the experience of other Nations who have tried the policy which Bryanian outlines for the American people.

At the conclusion of the address of Mr. Yerkes, Judge Holt responded to numerous calls and spoke for a few moments.

All in all, it was the greatest demonstration of the campaign, or, so one enthusiastic put it.

"It was a corker!"

WE'RE FOR AMERICA/AMERICANS!

"It better that it is a good debt better to open up the hills of the United States to the labor of America than to open up the hills of the United States to the labor of the world."—WILLIAM MCKINLEY.

How will Mr. Bryan get the gold back from the "money power"? Evidently he must offer an inducement. What inducement? To be sure, the Mints will be open to gold as well as silver. But who will offer gold bullion to have it coined into dollars when he can have silver dollars with the same legal tender power at half price? Only an idiot would do that.—CARL SCHREIBER at CHICAGO.

THOMAS S. MERRILL, Secretary of the Bimetallite League of the Silver States, has let the cat out of the bag as to the conspiracy of the silver mine owners to unload their bullion on the United States Government in a letter he sent to The Salt Lake Herald. Mr. MERRILL says in his letter:

"If Mr. BRYAN in defeated we must expect to see silver sold at a price that will be given it simply by its demand for use in the arts, which will certainly be not more than forty cents an ounce. In view of these facts, the owners of silver-producing properties can afford to contribute at least the additional profits they receive from their own silver product for one month to the Bryan campaign."

He closes with a direct appeal to well-known silver mine owners as follows:

"I appeal to MERRILL, MCINTYRE & CUNNINGHAM of the Mammoth; KETTER & KLEISS of the Silver King; CUTT-HOLM and others of the Centennial and Kureka; RYAN & KNOX of the Ajax; PACKARD of the Kureka Hill; DALY of the Daly; WEST, BECK and associates of the Bullion-Belt; FARNWORTH & SHARP of the Horn Silver, and the owners of the Bloz, Ontario and other silver mines of this state, who can well afford to assist in this cause, to figure up the average monthly silver product from their mines and multiply the product of one month in ounces by sixty-four cents, which is the additional price they will receive for their product—all of which will be profit—and at once have that amount contributed and placed in the hands of the Treasurer of the bimetallite parties to assist Mr. BRYAN in the wonderful campaign he is making almost unaided. If we can secure the additional profits of one month's product of the Western silver-producing mines it will insure success at the election on November 3d."

Hunters will do well to remember that it is unlawful to kill quail, pheasants or other game birds before November 15th. The law provides for a fine of \$25 for each violation, half of which goes to the informer.

The Darlington, Wis., Journal says editorially of a popular patent medicine: "We know from experience that Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that is claimed for it, as on two occasions it stopped excruciating pains and possibly saved us from an untimely grave. We would not rest easy over night without it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. Every family should keep it in the house, for it is sure to be needed sooner or later. For sale by J. James Wood, Druggist.

The Ledger's Leaflets—No. 19.

The stock in trade of the free silver advocates is assertion. They make statements without attempting to bring forward proof of their accuracy and in most cases for the reason that proof is impossible. Unless answered, however, these assertions mislead those who hear them. It is important, therefore, that those who want to understand this important question should know the answers, in a word, to the most important of these stock assertions.

Here are some of the most frequent assertions of the friends of free coinage and the facts which answer them.

1.—That the free coinage of silver will make money plenty.

It will drive more than \$600,000,000 of gold out of the country, and it will require years to replace this amount with silver.

2.—That silver was demonetized in 1873.

To "demonetize" means to abandon the use of as money. Up to 1873 we had coined only 8,000,000 of silver dollars, since that time we have coined 423,000,000 silver dollars, and they are all in use and all full legal tender.

3.—That the present hard times result from the gold standard.

One cause of hard times is the continual agitation for cheap money. The other is suspension of manufacturing, due to increased importation of manufactures under the Wilson law.

4.—That the gold standard has ruined the country.

The wealth of the country more than doubled from 1870 to 1890.

5.—That the gold standard has cut wages in half.

From 1870 to 1890 wages increased 28 per cent. and their purchasing power 51 per cent.

6.—That silver is not a legal tender.

Silver dollars are legal tender to any amount; subsidiary coins are legal tender to the amount of \$10.

7.—That free coinage will make 37 1/4 grains of pure silver sell for \$1.

Three-fourths of the earth's population have free coinage of silver, but 37 1/4 grains of silver sell for 53 cents.

8.—That this country is silver sell for 53 cents. 8.—That this country is silver sell for 53 cents. 8.—That this country is silver sell for 53 cents.

9.—That the "money power" has cornered gold and made money scarce.

There is \$6,786,437,000 of gold in the world; and no combination could possibly corner it.

10.—That we are being driven into bankruptcy by scarce money and high interest.

In 1873 our circulation was \$18 04 per capita, in 1895 it was 22 96. The increase in the total money in the country was much greater. Since 1873 rates of interest have fallen 50 per cent.

11.—That the larger the volume of currency the higher are prices.

France has \$35 77 per capita. Switzerland has \$9 97. Prices are the same in both countries.

12.—That primary money only is a measure of values.

Gold is the primary money of both France and Greece. France has \$22 19 gold per capita. Greece has only 23 cents. Prices are the same in both countries.

13.—That the silver men demand bimetallism.

In his Centralia speech W. J. Bryan said: "The Democratic party has declared for a single standard of silver." That means silver monometallism.

14.—That free silver will raise wages.

From 1860 to 1865 a 49 1/2 cent paper dollar raised prices 116 per cent. and only raised wages 43 per cent., while the purchasing power of the money received for wages was reduced 66 per cent.

Sheriff Jefferson settled with the Auditor last week, paying him balance of \$3,000 00.

The tax rate at Winchester, O., is \$3 on the hundred; at West Union \$0 94, at Manchester \$0 50 and at Ripley \$0 30, while Aberdeen pays \$4 30.

The Milton News says that down in Trimble county there are fifteen bachelors in one school district and only one married girl. That is very near 16 to 1.

Sheriff William of Lewis county paid \$90 00 and squared his accounts with the Auditor Stone.

At the Germantown Fair yesterday Mrs. C. Edward Gehl was awarded \$10 premium for best bicycle rider and Mr. J. T. Kackley second premium of \$5.

If your children are subject to croup watch for the first symptom of the disease—hoarseness. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse it will prevent the attack. Even after the croupy cough has appeared the attack can always be prevented by giving this remedy. It is also invaluable for colds and whooping cough. For sale by J. James Wood, Druggist.

TRADE REVIEW.

A Somewhat Larger Employment of Labor Reported.

Cargoes of Wheat Shipped From the Pacific States to India.

An Unusually Heavy Foreign Demand for Cereals—A Result of Increase in Railroad Earnings—Textile Manufacturers—Chicago—Fallows Increase.

New York, Oct. 10.—R. G. Dun & Co. says Saturday in their weekly review of trade:

Distinctly better conditions have appeared of late and are reflected in somewhat larger employment of labor, in large transactions and in continued buying of materials for manufacture. A great part of the change is due to those restless laws of supply and demand which seize upon where it is wanted and go where it is wanted. India is waiting for cargoes of wheat on the way from Pacific states, just as Australia and South Africa were not long ago. The surplus usually available from India disappears and the surplus from Russia and European countries is reduced, according to late estimates, 75,000,000 bushels. Happily this country has a supply which official accounts have not correctly measured. If actual movements do not greatly mislead.

A feature of large importance, too, is the unusually heavy foreign demand for corn, which is a never failing sign of deficient crops abroad, where other grains are used instead of wheat when the latter becomes scarce and dear.

It is another good sign that railroad earnings, amounting to \$58,745,318 in the United States for September show a smaller decrease than in August—4 per cent. against a 57 per cent. increase with last year.

Iron furnaces in blast October 1 had a capacity of 115,750 tons weekly, against 129,500 September and 917,500 November 1 last year, while unblasted stock decreased 55,532 tons, but if those of steel making concerns were included, it would probably show an increase. Buying of materials continues, but hesitates in a shade weaker, \$11.40 at Pittsburgh. The demand for products is so light, and so much business is held back pending the election, that decreasing output is an unhealthy sign. Minor metals change little. The upward rush of hides has advanced prices at Chicago six per cent. for the week to the highest average since last November. Prices of leather rose 2½ per cent. with small dealings. Shoes are selling very little, as consumers refuse to pay higher prices and dealers remember buying at high and selling at low prices last winter. Orders for new shoes are few and few new concerns may close for a time.

Textile manufacturers are gaining a little and the buying of wool by large mills covers 7,000,000 pounds for the week against 11,240,000 last year. Prices advanced about one per cent. in September and have since advanced again more, though a few of the mills have orders for a long time. Hauling of cotton has been checked by heavy receipts from plantations, 1,232,287 bales having come into sight in September against 542,324 last year. The price has dropped seven-sixteenths for the week, and few new large concerns in a crop of only 7,000,000 bales. Speculation in stocks has yielded a little, about \$15 for railroad, and \$10 for coal for the week. The outward movement of money to the interior has been \$4,000,000 for the week, and little is going in common loans, with rates about one-half per cent. higher than a week ago.

Failures for the week were 296 in the United States against 268 last year, and 461 in Canada, against 53 last year.
